

## **GOTHAM ROAD CAR PARK EXTENSION**

Although the works are not yet complete we have opened the new spaces for use.

The exit ramp from the extension has not yet been built, so all vehicles will need to enter and exit from the existing car park until further notice.

Some work will be continuing during the summer and planting will follow as weather permits into the autumn.

New direction arrows will be painted when the exit ramp is built in due course, and all signage erected. Traffic will then drive through, with separate entrance and exit.
