

**13/01396/FUL, Land West of Field End Close, East Leake.
Response from East Leake Neighbourhood Plan Project Team**

Parish Office
45 Main Street
East Leake
LE12 6PF

East Leake Parish Council has formed a Project Team to produce a Neighbourhood Plan to cover the Neighbourhood Area of the East Leake Parish. The designation of the Neighbourhood Area has been approved by Rushcliffe Borough Council. A vision statement has been drafted and distributed to the residents of the village for comment. See Appendix 3. The Neighbourhood Plan will establish planning principles that take forward the aspirations in the vision under the following headings:

- A viable community (community feel / employment)
- Green environment
- An attractive village centre
- Easier to get around (walking, cycling, wider links)
- Better facilities and services
- Housing for all

The Neighbourhood Plan is unlikely to identify specific sites for housing development; however the contents are likely include the following:

- An envelope for built development around East Leake
- A plan for phasing over the whole 15 year planning period the 400 additional homes required by the Borough Council (assuming their proposed core strategy is approved and adopted)
- Specification and prioritisation of infrastructure requirements for the additional housing (including Health Centre, Schools, Sewerage, Car Parking, Village Centre, Transport, etc)
- Target numbers for different housing types/size
- Preferred housing design/styles
- Size of developments (large v small estates)
- Infill v green field developments
- Preferred locations for different types of housing
- Excellent pedestrian and cycle connectivity between existing and new housing areas, and between new housing areas and facilities and employment
- Areas targeted for development to provide employment.

A Community-led plan for East Leake is being developed alongside the Neighbourhood Plan by the East Leake Community Plan Group, which in 2012 surveyed all households in East Leake on a range of issues, including a section on Planning and Housing to inform the Neighbourhood Plan. This section of the survey is attached as Appendix 2, together with the responses analysed from the 38% response rate achieved. We believe that this is important evidence of the villagers' views on the type of housing wanted.

A large tranche of new housing has been built in East Leake in recent years and needs time to become assimilated. In order for East Leake to now develop into a fully rounded and sustainable community rather than a collection of disjointed commuter estates, future developments require thought and probably phasing, along with a prioritised plan for infrastructure development to support the additional population.

Approval of any large developments at this time would pre-empt and undermine the planning processes that are under way, at both the Neighbourhood and Borough levels. The views of the residents should inform future developments in East Leake, not the financial interest of developers in a hurried "first past the post" race.

Workshops facilitated by CABI have been held to assist the Neighbourhood Planning process, and one of the tools used was the Design Council's [Building for life criteria](http://www.designcouncil.org.uk/), see <http://www.designcouncil.org.uk/>. The NP project team group has made a preliminary assessment of the scheme proposed against these criteria. In summary – what is proposed lacks imagination, innovation and distinctiveness, and there are some serious areas of concern. See Appendix 1.

Note that this response is from the Neighbourhood Plan Project Team, and is offered in addition to the formal response of the Parish Council via its Planning Committee.

APPENDIX 1 – ASSESSMENT OF FIELD END CLOSE PROPOSALS AGAINST BUILDING FOR LIFE CRITERIA

INTEGRATING INTO THE NEIGHBOURHOOD

Criteria	Neighbourhood Plan Group's Comments	Score
<p>1. <u>Connections:</u> Does the scheme integrate into its surroundings by reinforcing existing connections and creating new ones; whilst also respecting existing buildings and land uses along the boundaries of the development site?</p>	<p>Not met.</p> <p>There are considerable concerns about the access to the site. It is doubtful that the proposed access road will be wide enough to accommodate 2-way traffic without severely impacting the properties on either side. Furthermore, that part of West Leake Road is busy, with cars parked opposite because none of the houses have garages. At times when the scout hut is in operation, parental cars often cause congestion. There is a blind bend close to the proposed junction. Even with the existing road sign indicating that traffic may be on the wrong side of the road, this presents a significant hazard.</p> <p>There is no footpath link to the existing footpath along the ridge, nor is there a proposal to extend the pavement to the footpath link further west on West Leake Road.</p>	Red
<p>2. <u>Facilities and Services:</u> Does the development provide (or is it close to) community facilities, such as a school, parks, play areas, shops, pubs or cafés?</p>	<p>Not met. There are serious concerns.</p> <p>Primary School provision, as the catchment area school is over capacity at present.</p> <p>The village centre is debatably within walking distance. This includes the Library and Health Centre, the latter in urgent need of replacement/improvement. The Health Centre is already inadequate for the needs of existing residents. There is insufficient parking, both short stay and long stay, in the centre of the village.</p> <p>The foul water sewerage system in the village is already operating at or above its design capacity, and there have been 9 instances of discharge of foul water into the brook in extreme weather conditions during the last year. In our view the upgrading of the system is essential to accommodate additional housing in the village. There has also been at least one occurrence of raw sewage flooding a garden near field End Close because of drainage limitations.</p> <p>There is no usable green space proposed in this development.</p>	Red
<p>3. <u>Public Transport:</u> Does the scheme have easy access to public transport to help reduce car dependency?</p>	<p>Not met. Undoubtedly this development would be heavily dependent on cars.</p> <p>The Soar Valley bus does not regularly pass this site. The main No 1 service is 1 mile away on foot – a significant distance. The bus services have their limitations, and need to be improved, e.g. addition of a late evening bus from Loughborough.</p>	Red
<p>4. <u>Meeting Local Housing requirements:</u> Does the development have a mix of housing types and tenures</p>	<p>Not met.</p> <p>The Community Plan questionnaire (Appendix 2) indicated over 2/3rds requesting smaller houses. Rushcliffe Borough Council's</p>	Red

that suit local requirements?	<p>assessment of need for market housing indicates 83% as 2 or 3 bedroom properties. This contrasts with around 70% 4 or 5 bedroom non affordable properties in this proposal. This will create a polarisation in the market v affordable provision, rather than a gradation to create a broad based community.</p> <p>There is nothing in the scheme that offers live/work possibilities.</p>	
-------------------------------	--	--

CREATING A PLACE

<p>5. <u>Character:</u> Does the scheme create a place with a locally inspired or otherwise distinctive character?</p>	<p>Partially met.</p> <p>This is a generic housing development with designs selected seemingly at random from standard ranges. It could be built anywhere. It feels like another anonymous area of standard new suburban housing development. There is no distinctive vision.</p>	Amber
<p>6. <u>Working with the site and its context:</u> Does the scheme take advantage of existing topography, landscape features (including water courses), wildlife habitats, existing buildings, site orientation and microclimates?</p>	<p>Not met.</p> <p>The site is neighboured mostly by bungalows. Having houses next to them is out of scale and invasive for the residents, especially since the site is higher than most of the adjacent bungalows.</p> <p>The proposal will have some impact on the views from the bridleway along the ridge. It is also a “backland development” at the linear edge of the village, appearing totally out of character.</p> <p>The view of the green ridge behind the development will be partly obscured, from various viewpoints in and around the village.</p>	Red
<p>7. <u>Creating well defined streets and spaces:</u> Are buildings designed and positioned with landscaping to define and enhance streets and spaces and are buildings designed to turn street corners well.</p>	<p>Partially met</p> <p>The scheme makes no attempt to integrate into the existing Field End Close street scene. There are no houses which turn corners. The existing houses on Field End Close will be facing blank side walls.</p>	Amber
<p>8. <u>Easy to find your way around:</u> Is the scheme designed to make it easy to find your way around?</p>	<p>Met</p> <p>3 parallel short roads do not present a navigational challenge!</p>	Green

STREET AND HOME

<p>9. <u>Streets for all:</u> Are streets designed in a way that encourage low vehicle speeds and allow them to function as social spaces?</p>	<p>Partially met.</p> <p>There is no provision for cyclists. It is difficult to see how the streets will function as social spaces.</p>	Amber
<p>10. <u>Car parking:</u> Is resident and visitor parking</p>	<p>Partially met.</p>	Amber

sufficient and well integrated so that it does not dominate the street?	There is a good allocation of parking spaces per household for residents; however vehicles will dominate the street scene in some areas.	
<p>11. <u>Public and private spaces:</u> Will public and private spaces be clearly defined and designed to be attractive, well managed and safe?</p>	<p>Surveillance does not seem to have been designed in. Most of the new public areas are overlooked to some extent by housing, but the new houses have no windows onto Field End Close.</p> <p>Nothing is included about street/footpath lighting or maintenance of vegetation, which could lead to dark, unsafe areas. No management plan is included.</p> <p>No play equipment is proposed, and a contribution to upgrading the play equipment in the centre of the village should be explored with the local community.</p>	Amber
<p>12. <u>External storage and amenity space:</u> Is there adequate external storage space for bins and recycling as well as vehicles and cycles?</p>	<p>Partially met.</p> <p>No information provided regarding cycle storage</p>	Amber

APPENDIX 2 – RELEVANT SECTION OF COMMUNITY PLAN QUESTIONNAIRE

9. Planning and Housing - In this section, we'd like to find out what you think about planning and housing in East Leake.

THE RUSHCLIFFE CORE STRATEGY REQUIRES THAT AT LEAST 400 NEW HOMES ARE BUILT IN EAST LEAKE DURING THE NEXT 15 YEARS

We cannot change the 'Core Strategy' which is based on Central Government requirements, BUT if the Parish Council instigate a 'Neighbourhood Plan' the community can have its say on HOW, WHERE, WHEN, WHAT TYPE and also other planning issues such as employment opportunities in the village, village services, transport, village centre layout and design.

U. Please rank the need to build the following housing types within East Leake.	High				Low			
	1	2	3	4	1	2	3	4
U1. Large executive houses with 4 or more bedrooms.	8%	11%	14%	67%				
U2. Smaller 3-4 bedroomed houses including semi-detached.	31%	34%	16%	18%				
U3. Homes and apartments suitable for smaller families and single people.	41%	28%	15%	16%				
U4. Bungalows.	32%	30%	18%	21%				
U5. Sheltered Accommodation.	25%	25%	17%	34%				

V. To what extent do you agree with the following statements about housing development in East Leake?	Strongly Agree					No Opinion				
	Strongly Agree	Agree	Disagree	Strongly Disagree	No Opinion	Strongly Agree	Agree	Disagree	Strongly Disagree	No Opinion
V1. I am happy with the styles, designs and types of homes in East Leake.	8%	64%	21%	7%						
V2. New housing should be provided in large estates.	32%	30%	20%	19%						
V3. The building of the proposed 400 new homes should be phased in over the next 13 years.	30%	44%	9%	17%						
V4. Following the development of these 400 new homes, East Leake should continue to expand further.	4%	8%	27%	61%						
V5. Priority should be given to the re-development of existing built areas.	35%	53%	8%	4%						
V6. Development on greenfield land surrounding the present built areas of the village is the best option.	3%	12%	26%	59%						
V7. Housing should be located within easy reach by foot to the village centre and public transport.	26%	61%	8%	5%						

9. Planning and Housing - Tell us what you think about planning and housing in East Leake (cont...)

W. There are financial incentives for the village which come with new housing development. If we could influence where this money should be allocated, rank the following in order of priority.	High		Low	
	1	2	3	4
W1. Building a new health centre.	73%	14%	6%	7%
W2. Providing more car parking within the village centre.	32%	30%	20%	19%
W3. Maintaining our local village environment (e.g. litter picking, keeping the brooks clean etc.)	57%	31%	9%	3%
W4. Improving our local transport links.	40%	36%	17%	7%
W5. Refurbishing the playground facilities within East Leake.	24%	32%	29%	15%
W6. Building a large hall/entertainments venue.	12%	19%	27%	41%
W7. Making our village look more attractive.	31%	34%	24%	10%
W8. Extending our primary schools.	36%	28%	21%	15%
W9. Other (please specify):				

East Leake Neighbourhood Plan: Draft Vision

Introduction

East Leake is a rural village in south Nottinghamshire, set in a green hollow surrounded by hills. The built area is divided through the centre by a green wedge, the result of the Kingston Brook and its associated floodplain. Over the last half century, it has grown rapidly from being a linear village at the junction of roads that emanate north, south, south-west, east and west, to being a much larger settlement of some 6000 people. It is very well connected to the rest of the East Midlands region and beyond, being close to Loughborough, Nottingham, Derby and Leicester, and having motorway, rail and airport links within a few miles of the village.

East Leake set in a green hollow...

...surrounded by hills

East Leake is largely self-contained and acts as a hub for surrounding smaller villages. It has a historic centre at one end of Main Street and a contrasting, more modern shopping centre at the other. There are a wide range of services and a good selection of shops in the village, plus considerable employment, especially at British Gypsum.

Why we need a vision

This vision is our aspiration for shaping East Leake over the next 15 – 20 years, by setting goals that are both realistic and achievable. We believe we need a vision to ensure that East Leake develops in the way the community wants, for the benefit of all.

St Mary's Church commenced in the 11th century

Sheepwash Brook on Brookside

Our vision

A viable community. We wish to maintain the character of East Leake as a place with a strong sense of community, supporting a wide range of facilities and services. We aim to enhance local employment opportunities, in particular improving facilities for start-up businesses.

Maintaining the green environment. We wish to conserve and enhance the rural character of the village, and to preserve the ring of green undeveloped hills surrounding the village. Further, we intend to exploit and enhance the network of informal green spaces within the village, so that they support attractive pedestrian and cycle routes connecting the different parts of the village.

Green wedge dividing the village

Shopping centre

An attractive village centre. We are concerned that at present the shopping centre is something of a muddle; we will endeavour to improve the quality of the entire public realm in the village centre by making it more pedestrian-friendly and safer, resolving parking problems, reducing traffic dominance and radically improving the quality of building design and materials. We will also encourage retention and widening of the range of shops and facilities that serve the needs of the community.

Easier to get around. We will seek to improve connections between the different parts of the village, and out into the countryside beyond, for both pedestrians and cyclists; in particular we want all new developments to enhance the network of routes within the village. We will press for improvements to public and community transport links with facilities and transport interchanges outside the village.

Better facilities and services. We believe that the capacity of essential services such as health, education and drainage should be increased in step with any new developments within East Leake and surrounding smaller villages, and will press hard for this. Further, we wish to improve facilities for young people, and in particular provide more activities for teenagers

Georgian house in Station Road

New private housing at Osier Fields

Housing for all. We are concerned that recent new housing developments have been mainly targeted at well-off families; our aim is to maintain the diversity of the village population by ensuring that new housing is provided for young people, lower income families and older people. We will restrict new housing to sites within walking distance of the village centre, and will ensure that its character is sympathetic to the local tradition in terms of materials and scale. We will encourage smaller scale housing developments on infill sites in preference to large-scale estates on green field sites. We will encourage and support improvements in the quality and energy efficiency of older housing.
